Movement  
of India**

Educate. Empower. Encourage. Engage

## **ARE YOU TIRED OF WITNESSING RAMPANT INJUSTICE IN OUR SOCIETY?**

### **Do you feel powerless to make a change?**

"You are not alone. Together, we can build a citizen-led movement, a beacon of hope for those seeking lasting transformation."

Our movement is a collaborative effort, uniting citizens, activists, progressive politicians, experts, NGOs, and intellectuals in a common goal: achieving holistic justice in our society."

**Social

**Justice  
Movement  
of India**

Educate. Empower. Encourage. Engage

## **THE JMI'S ACTION PLAN TO IMAGINE AND BUILD OUR NATION FOR THE NEXT 75 YEARS.**

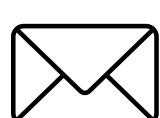

**The social action** plan has been designed to foster a more informed and responsible citizenry. To achieve this, we seek to educate people about constitutional values that should govern individual & collective behaviour and to empower people by raising awareness about their rights and duties. Through these measures, the plan aims to create a more cohesive and harmonious society where everyone is aware of their responsibilities and committed to upholding them, regardless of any unforeseen situations that may arise.

**The political action** plan aims to flourish local communities by promoting the active involvement of citizens in the political process. The plan involves encouraging individuals from villages and wards to step up and become Responsible Political leaders, thereby strengthening the concept of Local Self-Governance. This will help foster a culture of transparency, accountability, and fairness in decision-making by actively engaging local citizens in Governance. Ultimately, this approach will pave the way for a more inclusive and participatory democracy where everyone's voice is heard and taken into account.
